
-- PORT NEWS --

April 2018

-- welcome --

**Don't wait for someone to bring you flowers. Plant your own garden and decorate your own soul.
~Luther Burbank**

EARTH DAY EVENT REMINDER!

The Port will celebrate Earth Day 2018 by picking up debris along the Waterfront Park and Trail.

When: **Friday, April 20th - 2pm to 4pm**

Where: **Washougal Waterfront Park Picnic Shelter**

Volunteers needed. **Please bring a pair of work or gardening gloves for yourself as supplies are limited.** We hope you will join us!

NEW WAVE RUNNER FLOATS

The south end of F-Row looks a bit different now. The whole maintenance team came together and installed 13 new wave runner floats. It was great to have everyone here working and focused on one goal.

If you would like to lease one for your wave runner, contact Sadie Hayes in the front office at (360) 335-3676 or via email at sadie@portcw.com and she can help you out. You better hurry though, because they are going fast.

NEW WEBSITE COMING SOON

Today's marketing requires a heightened understanding of end-to-end customer experiences. Every touch point with a visitor is an opportunity to express your brand and communicate value. Providing a memorable online experience driven by the use of the relevant content is key to generating interest and building lasting relationships. As part of The Port of Camas-Washougal's website refresh process, we will implement modern design practices to ensure the site is responsive (mobile friendly), easy-to-navigate, and strategically aligned with ongoing marketing campaigns.

The revamp of PortCW.com is an exciting opportunity to draw attention to the communities it serves and bolster the economy. Our site is multi-functional, assisting businesses, tourists, and residents. Our goal is to provide an online experience that addresses your specific needs and gives you a reason to return over and over again. Look for the new website July 2018.

HARBOR MASTER'S VIEW

Things are rocking in the marina (literally) as the weather warms. We have more people coming to the marina every week, more smiling faces, and more people that may need just a little bit of help with their boating skills. People may not always ask when they need help, so if you see someone that looks like they may need assistance, take the high road and ask them. You might make a new best friend!

The Port of Camas-Washougal offers their tenants a great opportunity to dispose of clean used waste oil from their boats with our oil depository program at the marina shop. The depository is for clean used oil only. Oil mixed with antifreeze, steering fluid, water, or any other foreign material is not permitted and is extremely hard for us to dispose of. Please don't make us remove this benefit due to abuse. Clean used motor oil only. Thanks.

Fred and Ethyl, our local Osprey, returned to the marina on Tuesday, April 10, 2018 this year. Last year they arrived on March 27, 2018. I see they are rebuilding their nest on the piling at the west end of the break water. It's good to see (and hear) them back in the marina.

Once again, I'd like to bring up the subject of "bad guys and suspicious people" in the marina. We all need to take the initiative to watch over "our" marina. If you see something or someone out of place, if you see anything unusual or questionable, call the Port. If it's an emergency call 911 first, then call the Port. It's our neighborhood folks, lets protect it.

Thanks all, for everything and remember, "check your lines".
