NEW INDUSTRIAL SPACE AVAILABLE AT PORT OF CAMAS-WASHOUGAL RIGHT CHOICE CABINETS TO BE FIRST TENANT

WASHOUGAL, WASH. (September 29, 2008) – Port of Camas-Washougal announces the addition of another 15,000 square feet of new industrial space on port property as the \$1.45 million Building 14 nears completion. Even as the final touches are being installed on Building 14, Port tenant Right Choice Cabinets, Inc. is preparing to move in as the new building's first industrial tenant. Right Choice Cabinets will utilize 3,750 square feet for its custom cabinet manufacturing operation.

Over the last decade, the Port of Camas-Washougal had added over 70,000 square feet of industrial and manufacturing space in several buildings at its industrial park in Washougal. The new spec building featured at the Port is designed to allow for the flexible use of industrial space by a single or multiple tenants for a wide variety of uses. The building can fit one or multiple companies, providing office space in the front, with large bay doors and loading docks in the back for shipping and receiving.

"At the Port of Camas-Washougal, our primary mission is economic development and increasing jobs in our local community," said Scot Walstra, Port Director of Planning & Development. "We've had great success with filling this type of spec building. Our convenient access to major highways, air, and rail transportation makes the Port's location attractive to a wide range of industrial users. "

Walstra added that the Port can provide build-to-suit options for lease or sale. With over 120 acres available for new development, the Port offers tenants room to grow and enhance the local industrial base.

The Port's 430-acre industrial park is already home to over 40 diverse companies for heavy and light industrial activities, 150,000 square feet of warehouse space, over a thousand employees, and 120 acres for future industrial expansion. Port tenants generate hundreds of additional jobs locally, over \$30 million in payroll, and contribute to taxes that help pay for public services such as roads, schools, and police and fire protection.

ABOUT THE PORT OF CAMAS-WASHOUGAL

Formed in 1935 by a vote of the local community, the Port of Camas-Washougal features a 400-acre industrial park, a 79-hangar general aviation airport, and a 350-slip pleasure boat marina. Popular with recreational and general aviation pilots, Grove Field airport also has a state-of-the-art fueling station and 14 tie-downs. The Port of Camas-Washougal marina, largest on the Washington side of the Columbia River, is adjacent to two restaurants, a launch ramp, hotel, a marina park, fueling station, guest docks, and homeport to the Vancouver and Dolphin Yacht Clubs.

More information about the Port of Camas-Washougal and its ongoing projects can be found at www.PortCW.com.
