After a brief discussion, a motion was made by Commissioner Marshall and seconded by Commissioner Spencer and the consent items were carried unanimously.

NEW BUSINESS / DISCUSSION ITEMS:

Freedom Boat Lease Amendment- Director of Business & Real Estate Derek Jaeger:

Jaeger stated this is the first amendment for the Freedom Boat Club. Jaeger explained they did not hit their target rate for membership for 2023 but are hopeful for growth in 2024. Jaeger stated they will be adding another summer slip on the East Dock this summer season so they will take up slips 1-6 and 1 on the breakwater dock. Jaeger stated their rates will also increase from \$900 per month to \$1050. The terms of the lease itself will not be changing. Jaeger stated this is a great opportunity for new boaters to come into the marina. Approval will be requested during action items.

Pendelton Land Lease- Director of Business & Real Estate Derek Jaeger:

Jaeger stated this is a license agreement rather than a land lease. Jaeger explained that the additional acquired square footage is for storage of the maintenance department's equipment. The license agreement will include a total of 14,000 square feet and will start on April 1. Jaeger also explained Pendelton stated tenant improvement is encouraged. The terms of the lease will be \$350 per month and will increase by three percent each year. Approval will be requested during action items.

Vega Lease- Director of Business & Real Estate Derek Jaeger:

Jaeger stated Vega will now occupy suite 107 in Building 20 in the industrial park. The bay is 9,900 square feet. Jaeger explained Vega is a gymnastics company that has been in business since 2004. Jaeger mentioned Vega is heavily involved in the community with partnerships with the city, the Chamber of Commerce and donating to local organizations and schools. Jaeger stated the lease will have a three-year term, with two one-year options. It is to increase by three percent annually and the first month of the lease will be deferred, which will be paid over the last two years of the lease. Jaeger is hopeful that Vega will help boost synergies between other companies within the industrial park. Commission and staff also spoke about parking strategies with Vega coming into the industrial park.

Immelman Phase 3 Hangars- Director of Business & Real Estate Derek Jaeger:

Jaeger stated Immelman is currently in phase 3 of their development at Grove Field and will either break ground this month or next. Jaeger explained there is an area of land between both buildings in phase 3 of the design that would be designated for parking. The port currently maintains this grass area and Immelman tenants now park on it causing ruts. Jaeger spoke to Immelman about this area in between both of their future hangars and thought it would be best to include it in their land lease due to future parking needs. Jaeger explained the addition to the lease would be \$70 more per month and Jaeger thinks Immelman should be responsible for it and the Commission agreed.

Resolution 5-24 Authorization of Vessel by Public Auction- CEO David Ripp:

Ripp stated the Port will authorize a vessel for public sale due to a non-paying tenant. Ripp explained that Jen West who does the Port's accounting works diligently trying to get ahold of tenants who are behind in payment via mail, email, etc. Due to the non-payment and the Port not being able to get ahold of this tenant, the wave runner has been chained to the dock. Ripp explained that a sale of the vessel would be needed to recover the costs and any excess funds would go to the state. Approval for the resolution will be requested at our next meeting.

PUBLIC COMMENT #2:
